London Flagship Store
17 The Market
Covent Garden
London, WC2E 8RB

"I wanted to create sunglasses that were different to anything I'd seen, so I design each pair like it's a little work of art designing to delight, always. We don't do boring at FAS."

- Creative Director,
Xiwen

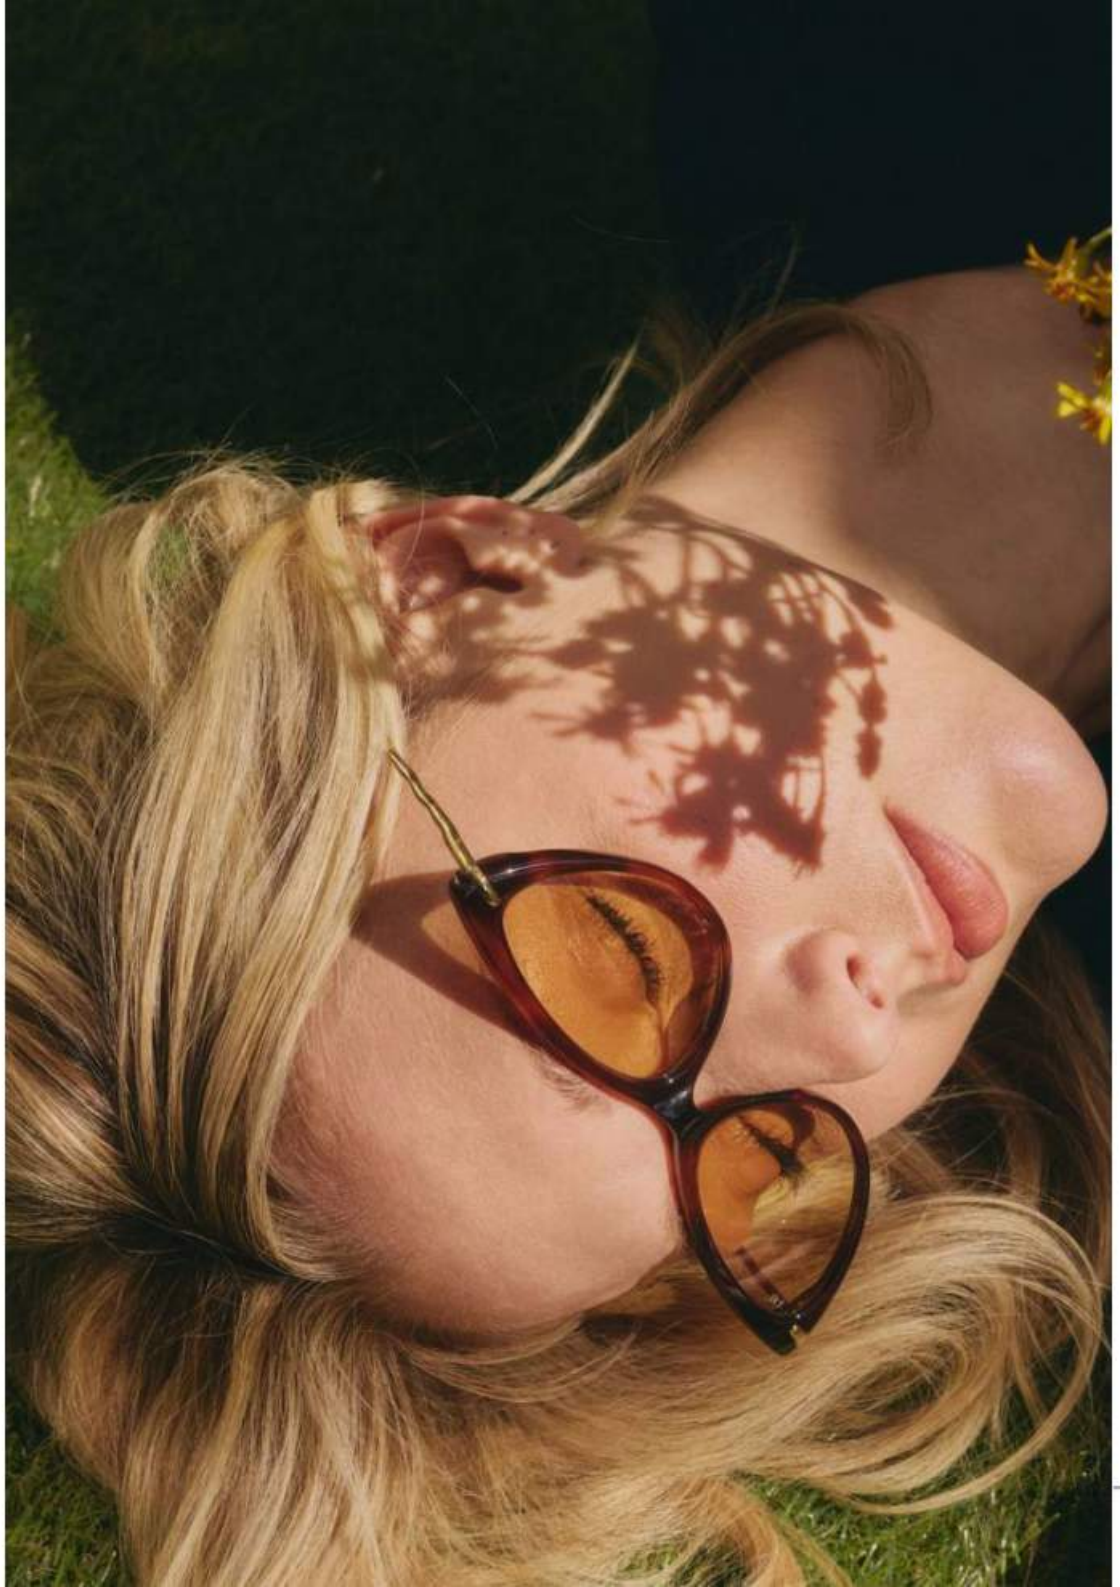
FOR ART'S SAKE
LONDON

Founded in 2016, For Art's Sake is one of the biggest and most exciting eyewear brands to come out of London.

Loved for its bold details and a light-hearted approach to luxury, FAS lives by the phrase 'Designed to Delight' – seen in everything from our striking art deco-inspired stores to our blue velvet packaging and the charities we support (with every purchase you make, we donate a pair of glasses to someone in need through Restoring Vision and plant a tree with Trees for the Future).

Partners Yannis and Xiwen came up with the idea for FAS on a holiday to Greece where they couldn't find a stylish pair of sunglasses at the right price point. They set about creating a brand that combines affordable luxury with exceptional handmade quality and after a lot of late nights, FAS snowballed to success in under four years.

FAS can now be shopped right here, at our standalone store in Covent Garden, and can be found in/on 1000 of the world's most exclusive retailers, from Net-A-Porter to Harvey Nichols, Saks 5th Avenue and Neiman Marcus. Creative Director Xiwen was also placed on Forbes' 30 Under 30 List for 2019, cementing For Art's Sake's position as a coveted label worn by pop culture icons and Instagram's most-followed alike.



SOL STATE

Sol State is not a location, but a state of mind—the warmth, calm and optimism that linger as summer gives way to autumn. Set against the English countryside, the collection captures a slower, more considered way of living.

At its heart is an artistic approach to everyday life: dressing with intention, choosing objects for their character and craftsmanship, and finding inspiration in the natural world. Sculptural forms bring this sensibility to the collection—pieces designed to be noticed, yet never overdone.

Sol State embraces the luxury of stillness: taking time to appreciate beauty in the details, slowing down and being present. It is a softer kind of confidence, rooted in personal style, craftsmanship and an appreciation of the everyday.
