FALL WINTER 2026

ENGINEERING VISION FOR MODERN MEN.

The contemporary man doesn't just let the day happen to him; he dictates its rhythm. From the sharp focus of a morning boardroom to the crisp, low-lit ambiance of an autumn evening, his life is a masterclass in seamless transitions. The T-Charge Fall/Winter 2026 Collection is crafted for this exact momentum. We designed eyewear not just to frame the face, but to frame a life lived fully, dynamically, and without pause.

This collection draws inspiration from the kinetic energy of the modern gentleman as the seasons shift. He requires accessories that can keep pace with his ambition and adapt to changing environments—from bold urban architecture to deep, serene winter landscapes, from high-stakes decisions to warm, elevated gatherings.

For Fall/Winter 2026, T-Charge captures this duality by pairing architectural lines and refined geometries with rich, tactile materials that layer seamlessly with cool-weather wardrobes. Our frames are the silent, stylish partners in his daily pursuit of excellence.

T9217

T9217-A01

T9217-G21

T9217-T02

A bold pantos silhouette defined by a classic keyhole bridge, giving the front profile a refined, architectural structure. Gradient lenses lend a modern, polished depth, while the temples showcase dynamic craftsmanship through a multi-material construction. A textured metallic core insert—engraved with the signature T-CHARGE logo—integrates seamlessly into geometric hinge hardware before transitioning into sculpted acetate arms. Crafted for an elevated aesthetic that pairs effortlessly with modern tailoring.

T3165

T3165-02A

T3165-04A

T3165-09A

A modern take on classic round eyewear, this frame combines a refined titanium profile with subtle industrial details. Thin rim wires frame soft, oval lenses, accented by finely grooved coin-edge texturing along the outer rim. Sculpted metallic hinges seamlessly connect the front to slender, streamlined temples with ergonomic tips. Lightweight and minimalist, it balances vintage refinement with modern executive sophistication for T-Charge.

T3167

T3167-A01

T3167-A02

T3167-T02

An architectural navigator silhouette featuring a bold, geometric double-bridge construction with sharp, polygonal lens rims. Gradient lenses bring dynamic light to the frame, while multi-material temples highlight engineered precision—combining matte metallic block elements and structured hinge details with streamlined temple tips. Crafted to deliver an assertive, executive presence with a lightweight feel for T-Charge.

T3169

T3169-02A

T3169-02B

T3169-04A

A sleek rimless rectangular frame that channels executive sophistication with refined, minimalist precision. Frameless blue-tinted lenses yield an ultra-lightweight, floating visual effect, anchored by an understated metallic nose bridge and adjustable nose pads. Slender metallic arms feature a glossy black inlay detail along the top, extending into ergonomic temple tips for a sharp, modern finish for T-Charge.

T1472

T1472-04A

T1472-06A

T1472-09A

A refined optical frame defined by a geometric navigator shape in gold-toned stainless steel, featuring a structured double bridge that adds architectural character. The sleek metallic front is paired with multi-material temples, where gold accents merge with tortoise-patterned acetate for a warm, sophisticated contrast. Designed with engineered hinges and lightweight precision, it delivers a sharp, executive look with modern elegance for T-Charge.

T6403

T6403-A01

T6403-G21

T6403-T02

A classic pantos optical frame reinterpreted with bold acetate geometry and a distinctive keyhole bridge. The polished black front profile features angled upper contours, anchored by subtle metallic rivet accents at the hinges. Multi-material temples reveal a textured, clear-to-grey acetate wire core that transitions into solid black temple tips. Designed to blend timeless tailoring with executive craftsmanship for T-Charge.
